

Empowering Women Through Sustainable Innovation

April , 2025

Levva is setting a new standard in sustainable menstrual care in Iran — a trusted brand built by women, for women.

OUR VISION

To normalize sustainable menstrual health across the Middle East by building the region's most trusted, accessible, and empowering period care brand.

OUR MISSION

Levva creates high-quality, medically-approved menstrual care products tailored to Middle Eastern women — combining innovation, education, and access to empower every stage of womanhood.

PROBLEM STATEMENT

Disposable Culture, Long-Term Harm

- Over 90% of menstrual products used in Iran are single-use, creating both health risks and environmental waste — with few trusted alternatives available.

One-Size-Fits-Few

- The current market fails to serve the full range of menstrual needs — from teens and new mothers to menopausal women and girls with physical disabilities.

Stigma, Silence, and Misinformation

- Widespread cultural taboos and a lack of regulated education leave many women relying on unsafe or unhygienic options.

OUR SOLUTION – PRODUCT ECOSYSTEM

- **Menstrual Cups** (2 ergonomic models, 2 sizes)
- **Menstrual cup Sterilizers** (collapsible silicone & electric fast-heat)
- **Warmer Pads** (single-use pain relief patch)
- **Period Underwear** (3 styles balancing comfort, absorbency, and fashion)
- **Reusable Pads** (daily & overnight eco-friendly designs)

Growth Opportunities: Expanding product range with period underwear, menstrual disc, teen-friendly kits, menopause care, Accessibility-Focused Designed products and feminine consuming products (vaginal washes, lubricants, intimate hygiene).

GLOBAL MARKET INSIGHT

Global Trends

- Reusable menstrual care market: **\$1.5B today → \$3.5B by 2033 (9.8% CAGR)**
- Driven by eco-conscious Gen Z, medical safety concerns, and rising costs of disposables.

Regional Opportunity

- In MENA, cultural awareness and health literacy are rising — yet trusted, localized options are still rare.
- Iran is the **12th** largest population of menstruating women globally, with a huge underserved segment.

MARKET SIZE

IRT 42.9T
(~ \$437M)

IRT 16.7T
(~\$170.7M)

IRT 3.3T
(~\$34.1M)

TAM

Total Addressable Market

Based on 26M menstruating population ×
avg. 1.65M IRT annual spend per person

SAM

Service Addressable Market

Targeting 39% of population: urban,
middle-income women, 10.14M.

SOM

Serviceable Obtainable market

20% of SAM: Based on direct reach.
With targeted awareness campaigns and
influencer collaborations, we estimate a 2–
3x expansion of reachable customers
within 24–36 months.

TRACTION & SALES GROWTH

- **Menstrual Cups** remain a stable core product, with consistent annual volume since 1400.
- **Sterilizers** are a high-margin **cross-sell with cups**; volume stabilized after early growth.
- **Warmer Pads** became the fastest-growing SKU, jumping from **6.7K in 1402 H1 to over 31K in 1403 H2**.
- **Period Underwear** went viral in 1403, in social media. High-demand sizes **sold out repeatedly**, indicating strong product-market fit and untapped potential.

FINANCIAL OVERVIEW

- Revenue grew 171% from 1400 to 1403, driven by product diversification and channel expansion.
- Net profit margin decreased from ~20% to ~8% in 1403 due to:
 - Full restructuring of sales team
 - High inflation and local currency volatility.
 - Significant investments in hiring, inventory, and internal systems.
- As a bootstrapped team, we prioritized profitability early on. Now we are shifting toward long-term scale, which requires both capital and experienced strategic partners.

We're now at the inflection point where growth needs guidance. We've proven the demand — now we're seeking operational excellence and strategic capital to lead this category.

CUSTOMER & CHANNEL REACH

Levva's website
20,000+ direct customers

first-party data and
direct relationships

Levva's Instagram page
120,000 followers

COMPETITIVE LANDSCAPE

Brand	Origin	Product Range	Pricing Tier	Distribution Type	Notes
Levva	Iran	Full portfolio	Mid	Online, Pharmacies, Clinics	First-mover, trusted local brand
Andya	Iran	Cup + Sterilizer	Mid	Online, Pharmacies	Recently launched retail presence.
Hainz	Iran	Cup only	Low-Mid	Offline-focused (Naserkhosro)	Rely on offline distribution channel.
Lunette	Finland	Cup only	High	Pharmacies, online	First registered brand, rigid material
Hoorá	Iran	Cup only	Low	online	Product mold copied from Levva
Other	Mixed	Varies	Low-High	Unlicensed or black market	Risky, unsupervised, and illegal

Note:

- 13 brands are IMED-approved but most hold negligible market share.
- Levva is also active in adjacent categories (warmer pads, period underwear), where competition is minimal. Only recently have Doramns (pads) and Topic (underwear, different positioning) entered these spaces.

Period Underwear	8,000	~1,600/month	~5 months
Reusable Pads	2,050	~500/month	~4 months

OWNERSHIP & INVESTMENT OPPORTUNITY

Flexible Ownership Structure

- Open to a strategic investment or majority stake, depending on investor alignment.

Founders Open to Transition

- As builders, we've taken Levva from idea to national brand with no outside capital. Now we're ready to pass the torch to partners who can scale Levva across MENA.

Looking for More Than Capital

- We're seeking hands-on partners with experience in:
 - FMCG / consumer health scaling.
 - Regional market entry (MENA, diaspora).
 - Operational excellence and team development.

USE OF INVESTMENT

Team & Talent

- Hiring experts in management, marketing & distribution.

Marketing & Brand Expansion

- Boosting digital presence, influencer collaborations, and customer acquisition.

Distribution Network

- Expanding pharmacy/retail reach and improving last-mile logistics.

Product Development

- Launching new lines with high demand.

Regional Expansion

- Entering new MENA markets leveraging Iran's first-mover advantage.

WHY LEVVA?

Proven Impact

- 250,000+ customers, viral content, real traction in an underserved market.

Experienced, Mission-Driven Team

- Deep sector knowledge, personal connection to the mission, operational experience.

First-Mover Advantage

- Leading brand in Iran with momentum to scale across MENA. Early sales and community engagement in Iraq and Afghanistan (incl. Kurdish-language Instagram page) demonstrate regional demand.

Aligned With Global Trends

- Eco-friendly, health-conscious, female-led — future-ready and relevant.

Let's shape the future of menstrual health together.
